

Greyhounds Available Today

All greyhounds adopted from GAP are desexed, vaccinated, microchipped, wormed, and health checked. During the foster process they quickly and easily make the transition from being a racing animal to pet. Such is the stringent nature of the GAP assessment processes, the Victorian government legislates that greyhounds successfully passing through GAP no longer have to be muzzled in public.

Please note: There are no cat friendly greyhounds available today. Also, please check the whiteboard to see available dogs as the event progresses.

The greyhounds in attendance today will go to the first suitable family.
