

Greyhounds Present Today (21/10/17)

All greyhounds adopted from GAP are desexed, vaccinated, microchipped, wormed, and health checked. During the foster process, they quickly and easily make the transition from being a racing animal to pet. Due to the stringent nature of the GAP assessment processes, the Victorian government legislates that greyhounds successfully passing through GAP do not have to be muzzled in public.

The following greyhounds are all best suited to children 6 yrs. and over and don't need the company of another dog. (PURPLE GROUP)

Please note: There are no cat tolerant greyhounds available today.

The greyhounds in attendance today will go to the first suitable family.

Fanks

Age: 3 years old (whelped 09 May 2014)

Racing Name: LOADER

Microchip: 956000003661363

Fanks is back from foster and ready to find a home of his very own! He is a super fun pup who is very playful and LOVES balls and will even bring them back to you. Most of the time. Well, he considers it! His foster carer has said that Fanks is super affectionate and loves a cuddle. He also responds really well to positive reinforcements and is super eager to please. Come and meet this very smart and cuddly guy today!

Timone

Age: 3 years old (whelped 08 Dec 2013)

Microchip: 956000003357012

Timone is an easy going, gentle giant. He seems to have no real care in the world. He is quite independent, but also enjoys hanging out with his people. Timone is looking for a home where he can have his own space, but also be part of the family. When Timone had his dental clean and scale it was discovered he has Periodontal disease, he needs extra care to his teeth to keep them in good order and we advise regular dental checks.

He is very affectionate and can be a little pushy for it at times. So, he thinks that kids over the age of 7 would be best, as they would be less likely to fall over when he nuzzles in.

Jenna

Age: 3 years old (whelped 22 Jun 2014)

Microchip: 956000003425579

Hi there! My name is Jenna, I have just arrived at GAP and what can I say – they are in love me! I can be really funny when I play, my favourite thing to do is lean on you so you know that I am there. When I run everyone laughs at me, I think they are saying I have no coordination, I don't know what that means, my legs just go everywhere and people start laughing. I think living with a canine buddy would be awesome, but I might be ok on my own as well. Little Humans are pretty funny and I think I'd like to live with them 8 years and over too.

Microchip: 956000004075066

Ocean is looking for her very own Atlantis! She is like the jewel at the bottom of the ocean floor, no one has found it...until now! She is the world most affectionate turtle, she loves to play and act like a seal and flop about like a fish out of water. Ocean thinks living with or without another flounder canine buddy should be fine, and living with human shrimps over the age of 10 should be swell.

The secret to Kenny's heart is toys - big ones, small ones, soft ones and ones that go "squeak".
