

Greyhounds Present Today (21/10/17)

All greyhounds adopted from GAP are desexed, vaccinated, microchipped, wormed, and health checked. During the foster process, they quickly and easily make the transition from being a racing animal to pet. Due to the stringent nature of the GAP assessment processes, the Victorian government legislates that greyhounds successfully passing through GAP do not have to be muzzled in public.

The following greyhounds are best suited to children 6 years and older, and prefer the company of another dog. (YELLOW GROUP)

Please note: There are no cat tolerant greyhounds available today.

The greyhounds in attendance today will go to the first suitable family.

Salem is looking for a family that will see his inner beauty and a family that has another happy canine buddy for him to play with. Salem loves playing and thinks living with kids in their teens should be wonderful.
