All greyhounds adopted from GAP are desexed, vaccinated, microchipped, wormed, and health checked. During the foster process, they quickly and easily make the transition from being a racing animal to pet. Due to the stringent nature of the GAP assessment processes, the Victorian government legislates that greyhounds successfully passing through GAP do not have to be muzzled in public.

The following greyhounds are all best suited to children 6 years and over and prefer the company of another dog. (YELLOW GROUP)

Please note: There are no cat tolerant greyhounds available today.

The greyhounds in attendance today will go to the first suitable family.

Racing Name: RYLEE'S RING IN

Microchip: 956000008842122

Who couldn't resist this gorgeous face?! Jasper is a gorgeous houndie inside & out! He is a standout & and he can walk up and down stairs easily, so there are two things the new owner doesn't have to teach him. However, the new owner will have to continue his manners, obedience & socialisation with other dogs. Jasper could see himself living with another Greyhound, perhaps one that doesn't mind sharing toys as Jasper's favourite pastime is running around the yard with a squeaky toy in his mouth doing zoomies! Yippee! Jasper has only three toes on one of his back feet, but that doesn't affect him much at all, he still loves doing his zoomies and going for walks without any problems. Jasper is NOT cat friendly.
