Harry is a beautiful boy who will steal your heart just by staring into your eyes. Harry is a quiet boy at first but he can't wait to get to know you then wants all the pats. Harry should be able to live in a home with or without a canine friend, if he did have a buddy he would be suited to a confident calm friend so he can build his confidence. Harry should be suitable to children 8 years and older. are you able to offer Harry a home?

Juddy thinks there is no better way to start 2020 by being adopted! He is a very sweet, sincere boy who is a bit lost at the moment. He really needs a home he can call his own, one that will let him settle at his own pace, and a home that will show him how fabulous the world can be. He is super polite but can be a little shy in new environments. He is probably best suited with another calm canine to show him the ropes of pet life. Juddy is willing to try living with kids in their teenage years.
